# Aditya L1

Aditya-L1 will continuously observe the Sun from the L1 point, providing valuable data on solar activities and space weather.

## Aditya L1 successfully undergoes fourth earth-bound manoeuvre

India's Aditya-L1 spacecraft, the country's first mission to study the Sun, successfully completed its fourth earth-bound maneuver, according to ISRO. This maneuver occurred as part of the spacecraft's 16-day journey around Earth, enabling it to gain the necessary velocity for its journey to the first Sun-Earth Lagrangian point (L1), located about 1.5 million km from Earth. The spacecraft is now in a new orbit at 256 km x 121,973 km. The next step is the Trans-Lagrangian Point 1 Insertion maneuver scheduled for September 19.

## 'Fish with hands' spotted on beach in Australia'

A rare and seemingly extinct "handfish" was recently discovered on a beach in Tasmania, Australia, after several years. The woman who spotted it initially mistook it for a small pufferfish but recognized its distinctive hand-shaped fins upon closer inspection. The endangered species is known for using its unique "hands" to move along the ocean floor. This discovery has garnered significant attention and gone viral as it raises hopes for the conservation of this remarkable species.

## Air Force chief receives first of 56 C-295 transport aircraft in Spain

Airbus Defence and Space has delivered the first of 56 C295 transport aircraft to the Indian Air Force as part of a Rs 21,935-crore project aimed at modernizing India's air assets. Chief of Air Staff Air Chief Marshal VR Chaudhari received the aircraft in Seville, Spain. Airbus will deliver the first 16 aircraft from its Seville assembly line by 2025, with the subsequent 40 to be manufactured and assembled by Tata Advanced Systems (TASL) in India. The C295 is replacing India's aging Avro-748 planes and is known for its versatility in troop transport, paratrooper drops, logistics, medical evacuation, and special missions. With 15,000 immediate skilled jobs and 10,000 indirect jobs over the next decade, the C295 programme is a major boost for India's aerospace ecosystem, but the optimal absorption and channeling of offset billions will be crucial to the big picture success of the programme.

## New 20% TCS rule from October 1, 2023 - Know TCS rates on international trips, forex & card payments, foreign investments

Starting from October 1, 2023, India will implement new tax collection at source (TCS) rates on various transactions. Overseas outward remittances exceeding Rs 7 lakh for purposes other than medical and educational will incur a 20% TCS. For educational remittances, TCS will be 0.5% if funded by an approved loan, or 5% otherwise. Medical expenses abroad will have a 5% TCS beyond the Rs 7 lakh threshold. Purchases of overseas tour packages up to Rs 7 lakh will be taxed at 5%, increasing to 20% beyond that amount. Foreign investments over Rs 7 lakh will incur a 20% TCS. Credit card transactions are exempt, but debit and forex card payments exceeding Rs 7 lakh will be subject to a 20% TCS. Multiple sources of forex payments will not change the Rs 7 lakh threshold for TCS.

## India to take call on its policy stance on crypto, says DEA Secy

India is poised to determine its stance on cryptocurrency regulation in the coming months following global consultations and after an endorsement for a regulatory framework for cryptocurrencies under the G20. Economic Affairs Secretary Ajay Seth emphasized the need to assess India's position with reference to the G20 framework, recognizing the importance of a global consensus. While there's an acknowledgment of risks, the discussion is moving toward regulation rather than an outright ban, aligning with the recent IMF and FSB policy recommendations. Specific Finance Minister Nirmala Sitharaman said that the report released by the IMF and FSB will be discussed further by members during the World Bank Group-IMF Annual Meeting in October, to draw out specific contours for a global framework. She, however, refused to comment on whether that could involve a regulatory framework or an outright ban.

## India win Asia Cup for record-extending 8th time

Team India won the Asia Cup title in the most devastating style where they completely thrashed their opponents Sri Lanka with bat and ball. After winning the toss and opting to bat first, Sri Lanka were bowled out for just 50 runs in 15.2 overs. Mohammed Siraj was the chief destroyer with a 6-wicket haul which included four wickets in the 4th over of the innings. In reply, India did not bother wasting any time and chased down the target in just 6.1 overs and eventually won the final by 10 wickets.

## Maharashtra: ITI stipend goes up from Rs 60 to Rs 500 after 40 Years

The Maharashtra state education department has increased the stipend for students in skill-based courses like carpentry and plumbing from Rs 60 to Rs 500 per month. The stipend, initiated in 1983, remained unchanged for 40 years despite demands for an increase. The decision aims to alleviate financial burdens on students, and the stipend will be disbursed online through MahaDBT.

## PV Sindhu meets Apple CEO Tim Cook, offers him badminton match

The grand Apple annual event, which was concluded on September 12 at the company's headquarters in Cupertino, US. The event was also attended by the Indian badminton star PV Sindhu. There she had a memorable encounter with Apple CEO Tim Cook. Sindhu expressed her gratitude to Cook for the invitation and shared her delight in exploring the stunning Apple Park. She also mentioned her willingness to play badminton with Cook when he visits India next. The event not only featured celebrity meetings but also included significant tech announcements, including the unveiling of the iPhone 15 series and new watches, generating excitement in the tech world. The badminton champion shared another post with some more pictures with Cook from the event and wrote, "I find myself immersed in an #apple keynote event that promises innovation, excitement, surprises and of course a great conversation. Thank you Tim Cook."
